

EMS WEB DEPLOY DESKTOP CLIENT INSTALLATION:

1. To install the EMS Web Deploy Desktop Client, access the following URL (<https://gtevents.gatech.edu/EMSDesktopWebDeploy>).

Note: If the browser has a popup blocker enabled, it should be disabled or modified so that both "**EMSApplication.exe**" and the "**emswebdeployconfiguration.cfg**" files can be properly downloaded.

2. Click "Download and Install the EMS Desktop Client". Two files should be downloaded, "**EMSApplication.exe**" and the "**emswebdeployconfiguration.cfg**" file.
3. Launch the **EMSApplication.exe**. This will install the client locally.

4. At the EMS log-in screen, user must enter his or her "GT Account" and associated password.

A login dialog box titled "EMS Software V44.1". The main area features the EMS logo and a stylized geometric pattern. Below the logo, there is a link for "About EMS Software" and a copyright notice "© 1995-2018 EMS Software, LLC.". The login fields include "User ID:" with an empty text box, "Password:" with an empty text box, and "OK" and "Cancel" buttons at the bottom.

5. Click OK to login.
